REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Plainfield:

It is a pleasure to submit my first annual report to the citizens and School Board of Plainfield. This is the fifteenth of the supervisory series.

This report will give the statistical information compiled by the former Superintendent at the close of the last school year and comment on the first half of the present school year.

As is already well known to the citizens of Plainfield, Supervisory Union No. 50 was discontinued and Plainfield joined with Supervisory Union No. 32 which combines Lebanon and Plainfield. This arrangement gives the present Superintendent a pupil enrollment of about fourteen hundred children and forty-seven teachers.

It appears fitting at this time to say a word of commendation and praise in behalf of the late Mr. Averill who was your Superintendent for fourteen years. From my personal acquaintance with him, from comments of the teachers and citizens of Plainfield, as well as members of the School Board, he was a man held in high esteem for his personal characteristics of honesty and integrity, his insight and vision for the welfare of the children under his direction.

TEACHERS

The School District is fortunate in having in its schools teachers who are well fitted for their work, both in training and in maturity of judgment. It is always delightful to work with teachers who are trained and at the same time

have sufficient judgment to apply common sense to problems that arise in the school room. For reason of maturity and experience also these teachers can apply a broader view in the matter of instruction and discipline.

TEXTBOOKS AND SUPPLIES

These two items are the principal ones for which the Superintendent is responsible to the School Board in the matter of selection and purchase. Very wisely the scholar supplies, with the exception of a few small items, had been purchased early in May before the rise in prices. The principal increase is in the cost of paper. Since the opening of school many new textbooks have been purchased. The broadening of work in literature, health, and science has been a point concentrated on in two or more of the schools with the general addition of reading material. A beginning has been made in modernizing the arithmetic in the middle grades with a view to continuing this with the growth of the children. An effort has been made to get uniformity throughout the schools in the textbooks that are to be used.

PUPIL RECORDS

A permanent system of pupil records has been established so that the child's scholastic effort will be kept from year to year. This will assist us in placing children in the proper grades when transfers are made from one school to another and enable us to intelligently certify these to high school upon graduation.

MEDICAL INSPECTION

The school nurse, Mrs. Hasham, has examined all the children in the district and has followed up a considerable number of cases that were deficient in eye sight, nutrition and other ailments. At the present time many children are being furnished one-half pint of milk per day. The money

for this is furnished by the Federal Government, its object being to maintain a standard of health and growth among the children of the nation even in times of depression.

PRIZE WINNERS

Former town representative, H. E. Ward, in the spring of 1933, offered a series of prizes for the best essays by the children of the Plainfield schools. Children were allowed to write on any patriotic subject. The town was divided in two sections. The winners in the eastern section were: 1st Katherine Merrihew, Methodist Hill School; 2nd prize, Eleanor Harlow, East Plainfield; 3rd prize, Florence Morelock, Meriden School. The winners for the western section were: 1st Beatrice Bishop, 2nd Hazel Gibson, 3rd Fred Sweet, Jr.

SCHOOL BUILDINGS

The Plainfield Plain school is in first class shape in every way. The Meriden Village school is likewise in good shape except for the fact that ceilings and walls need re-decorating. The Spencer school, when the roof has been fixed, will be in a good state of repair. The Brook School is badly in need of interior decoration to give added light and to add a touch of pleasantness to the room. The room is far too large for the ten children that are housed there and consequently difficult to heat. The desks are almost entirely man size and should be replaced with adjustable desks suited to small children. The East Plainfield school needs a small amount of repair work done about the windows to guard against windy rain storms. Methodist Hill would benefit considerably by the addition of a few adjustable desks. I trust the citizens will take these comments kindly in the spirit in which they are given—i. e. the welfare of the children.
